Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moore, et al. (US 4,324,173) in view of Burke (US 6,365,046). The patent to Moore, et al. discloses the claimed subject matter except for the an inline filter disposed within the take-up pipe before the oil is returned to the tank. The patent to Burke teaches that it is known in the art to have an inline filter (46) for filtering purposes. Thus, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have provided the take-up pipe of Moore, et al. with an inline filter in the manner suggested by Burke in order to further filter the filtered oil from the filter pan before it is returned to the tank, if desired. The features variously recited in the dependent claims are considered obvious features and well within the ordinary skill in the art over the teachings of the references as modified herein the absence of any new or unexpected results.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection.
